

ComEd Consolidated Billing re Intergovernmental Agreement

Commonwealth Edison Company February 12, 1998

SUPPLEMENTAL STATEMENT ELECTRICITY ILL C. C. NO. 4

Original Sheet No. 61.41

Original Sheet No. 61.42

Original Sheet No. 61.43

Original Sheet No. 61.44

Original Sheet No. 61.45

Filed With the Illinois Commerce Commission on February 13, 1998

In the tariff sheets listed above, ComEd is filing a rider for the provision of consolidated billing to established intergovernmental agreement participants, pursuant to the terms contained in 220 ILCS 5/16-125A enacted in Public Act 90-561 on December 16, 1997 ("the Legislation"). The Legislation mandates that each electric utility in the State of Illinois serving at least 1,000,000 customers shall permit governmental customers acting through an intergovernmental agreement that was in effect thirty days prior to May 1, 1997, and that provides for these governmental customers to work cooperatively in the purchase of electric energy, to aggregate their monthly kilowatt-hour energy usage and monthly kilowatt billing demand. The Legislation further mandates that in implementing such aggregation, the rates and charges applicable under the combined billing tariff of the utility as in effect on May 1, 1997, shall apply to all load of eligible government customers selected by the governmental customers.

The proposed rider, Rider GCB – Governmental Consolidated Billing, provides service for the governmental customers identified in the Legislation under the rates and charges as were contained in ComEd's combined billing tariff, Rider CB –

Consolidated Billing (Experimental), which was effective on May 1, 1997.

With the filing of this Supplemental Statement and the tariff sheets to which it relates, ComEd will post a public notice of the filing in its offices and will place the tariff sheets in the public file in each such office.

Commonwealth Edison Company, therefore, requests that the Illinois Commerce Commission approve the proposed rider by allowing it to pass to file and become effective on March 30, 1998.
